

Torque Systems BNL motor with Accelus Amplifier

Features

- With fast response, accurate control, and high torque-to-inertia ratios.
- Speed to 10,000 rpm
- Continuous torque ratings from 50 oz.-in to 140 oz.-in
- Many Windings
 - 10 V/Krpm (13.4 oz-in/Amp)
 - 20 V/Krpm (26.8 oz-in/Amp)
 - 30 V/Krpm (40.5 oz-in/Amp)
- Superior low speed performance to 0.1 counts/second.
- Commutating Encoder option from 500 to 2050 line count.
- NEMA 23 Mounting

Motor

Torque Systems **BNL** motor with commutating encoder.

Amplifier

Accelus Panel with PST-150-05.

Wiring
