

# Copley Motion Libraries (CML) Software License Agreement

(EtherCAT Version 1.0, October 2011)

IMPORTANT - READ CAREFULLY: This is a License Agreement between Analogic Corporation, d/b/a Copley Controls (hereinafter referred to as the "Licensor") and \_\_\_\_\_ (hereinafter referred to as the "Licensee") in which Licensor grants Licensee certain rights in the Copley Motion Libraries Software Product, including the source code, electronic documentation and printed materials (the "Software Product"). The Software Product, as used below, refers to the current release version of the Software Product at the time of this agreement. The Software Product is copyrighted work, and its title and copyright are held by Licensor.

The EtherCAT Technology, the trade name and logo "EtherCAT" are the intellectual property of, and protected by Beckhoff Automation GmbH. You may use the EtherCAT Copley Controls Library for the sole purpose of creating and/or selling or otherwise distributing an EtherCAT network master provided that an EtherCAT Master License is obtained from Beckhoff Automation GmbH.

The EtherCAT Master License is available free of charge from Beckhoff Automation GmbH, Eiserstrasse 5, D-33415 Verl, Germany (www.beckhoff.com).

This Agreement is effective until terminated. You may terminate this Agreement at any time by destroying all copies of the Software Product including any documentation. This Agreement will terminate immediately without notice from Analogic Corporation, d/b/a Copley Controls if you fail to comply with any provision of this Agreement. Upon termination, you must destroy all copies of the Software Product.

Software Products are subject to U.S. export control laws, including the U.S. Export Administration Act and its associated regulations, and may be subject to export or import regulations in other countries. You agree to comply strictly with all such regulations and acknowledge that you have the responsibility to obtain licenses to export, re-export, or import Software Products.

If you do not agree with the terms of this Agreement, do not download, copy, install or use the Software Product.

## 2. Definitions

2.1 "Source Code" means a collection of files for the Software Product in forms that are used for originally creating it or making modifications to it, including all modules it contains, plus any associated interface definition files, scripts and files containing development environment settings used to control compilation and installation of an Executable, or a list of differential comparisons between different versions of it.

2.2 "Executable" means the Software Product in any form other than Source Code.

2.3 "You" means the Licensee, an individual or a legal entity exercising rights under, and complying with all of the terms of, this License or a future version of this License issued under Section 7.1. For legal entities, "you" includes any entity which controls, is controlled by, or is under common control with you.

2.4 "License Fee" means a one-time non-refundable fee payable to the Licensor in consideration for the use of the Software Product (check applicable license fee):

_____ a) Use in Single End-User Product or Application	\$500
_____ b) Unlimited Corporate-wide License	\$2,500
_____ c) Unlimited Multi-national World-wide Corporate-wide License	\$4,500

A Corporate-wide License applies to one incorporated unit and does not extend to subsidiaries. Corporations whose stocks are issued or traded separately are considered separate corporations by definition, and therefore cannot share a Corporate-wide license. Multi-national World-wide Corporate License covers groups of companies that are majority owned (ownership of more than 50%) by Licensee.

Licensee, at its option, may elect to upgrade the License to a new version of the Software Product (the Upgrade Payment) at an additional fee, if more than two (2) years have elapsed from the date of this agreement or after the date of delivery of paid upgrades thereafter. Licensee is entitled to upgrades without charge, if and when they become available, for a duration of two years from the date of this agreement or after the date of delivery of paid upgrades thereafter. Availability, schedule and pricing of updates to the Software Product are solely determined by Licensor, and Licensor is not obligated to release updates for the Software Product. If you do not wish to upgrade, you may continue to use the version of the Software Product obtained under a valid license in perpetuity. License Fee is non-refundable under any circumstance, even if use ceases for any reason for a product, application, or due to corporate mergers or a termination of corporation. However, the License may be transferred to another product if the use does not overlap within the Licensee organization.

2.5 "Single Product" means a product or application sold or licensed under a common principal product name. Individual programs in a "suite" or a "bundle" of applications are considered separate products unless they are always distributed as a single entity and no instances exist where they are distributed, sold or licensed separately. However, different versions of the same product, for example, "WordProcessor Plain" and "WordProcessor Pro," are considered as a Single Product.

2.6 "End-User Product" is software or application that is not capable of being used for developing or producing new applications.

### **3. Grant of License**

3.1 Licensor hereby grants you a non-exclusive, non-transferable, right and license (without the right to sublicense) to use the Software Product, provided that License Fee as set forth in section 2.4 has been paid if applicable and provided that you comply with all of the conditions set forth in this Agreement.
